

ALLAMUDI KALYAN BABU

+91 9347389313 Kolluru, India

allamudikalyanbabu56@gmail.com LinkedIn Portfolio GitHub Leetcode

Career Objective

Entry-level Software Engineer with strong foundations in Java, object-oriented programming, and data structures, skilled in developing scalable applications, solving problems, and collaborating to deliver high-quality software.

Education

KL University M.Tech, Computer Science and Engineering CGPA: 9.2	2023 – 2025 Vijayawada, India
NRI Institute of Technology B.Tech, Electronics and Communication Engineering CGPA: 7.8	2019 – 2023 Vijayawada, India

Technical Skills

Programming: Java (Core Java, Java 8), Python, SQL
Frameworks: Spring Boot, REST APIs
Databases: Oracle SQL, Relational Databases
Software Engineering: OOP, SDLC, Debugging, Version Control (Git)
Computer Science Fundamentals: Data Structures, Algorithms, Problem Solving, Complexity Analysis
Tools & Platforms: Git, Agile, CI/CD, AWS, Azure, GCP
Web Technologies: React, Node.js

Software Engineering Highlights

Strong problem-solving skills with experience in troubleshooting, performance optimization, and applying object-oriented principles while collaborating to deliver high-quality software.

Projects

- Hospital Automation System — Demo**
Developed backend services and REST APIs, analyzed requirements, and improved workflows by 42% through debugging, testing, and performance optimization while ensuring reliable and scalable solutions.
- Pathfinding Visualizer — Live**
Implemented algorithms such as BFS, Dijkstra, and A* demonstrating strong understanding of data structures and algorithm optimization. Improved application performance through efficient logic and code refinement.

Internships

- Software Development Intern — Bluestock (Remote)** Oct 2024 - Dec 2024
Developed backend APIs, troubleshoot issues, and improved performance following SDLC practices.
- AI/ML Virtual Intern — Google** Jul 2024 - Sep 2024
Built and deployed machine learning pipelines on Google Cloud, focusing on scalability, latency reduction, and reliable inference. Worked with distributed compute resources and improved model response time by **20%**.
- Full Stack Intern — Remote** Feb 2023 - Apr 2023
Developed applications integrating backend APIs and databases ensuring maintainable and secure code while supporting testing and debugging activities.

Certifications

AWS Certified Cloud Practitioner — Microsoft Certified Azure AI Fundamentals — Salesforce Certified AI Associate
