Summary

Aspiring Software Engineer (M.Tech CSE) with expertise in building and deploying scalable, high-performance applications. Proficient in Python, Java, React.js, Next.js, NLP, and Cloud (AWS/GCP). Skilled in full SDLC, from design to deployment, with experience improving workflows, enhancing system efficiency, and driving user engagement. Continuously strengthening problem-solving abilities with 300+ algorithmic challenges solved on LeetCode.

Experience

Software Developer (Self-Employed)

KL University, Vijayawada, India

Feb 2024 – May 2025

- Designed and deployed an **AI-powered hospital automation chatbot** using Python, NLP (SpaCy), TensorFlow, and GCP—automated patient query handling (500+ daily queries), reduced admin workload by 40%, and improved response times by 60%.
- Engineered a **real-time algorithm visualizer** in React.js with interactive controls for Dijkstra, A*, BFS, and DFS—enhanced user engagement by 50% and adopted by 100+ peers for learning complex algorithms.
- Developed a **Next.js portfolio site** with SEO optimization, integrated live project demos, and implemented automated CI/CD pipelines—boosted professional visibility and increased recruiter outreach by 3x.
- Built and deployed a Python-based conversational AI tool using OpenAI GPT APIs—integrated robust error handling, user session management, and scalable deployment via GCP Cloud Run.
- Led the full SDLC lifecycle: requirements gathering, modular design, version control (Git), CI/CD (GitHub Actions), automated testing, and cloud deployments ensuring 99.9% uptime.
- Collaborated with mentors and peers to ensure alignment with industry best practices and incorporated feedback to deliver production-grade solutions.

Education

KL University

M.Tech, Computer Science and Engineering

2023 – 2025

CGPA: 9.1

NRI Institute of Technology

B.Tech, Electronics and Communication Engineering

2019 – 2023

CGPA: 7.8

Certifications

- AWS Certified Cloud Practitioner *Certificate*
- Salesforce Certified AI Associate *Certificate*
- Microsoft Certified: Azure AI *Certificate*

Research

AI-Powered Hospital Chatbot for Automating Patient Management, Billing, and Lab Results Using NLP and TensorFlow
[Publication](#)

Technical Skills

Languages: Python, Java, JavaScript (ES6+), TypeScript

Frameworks: React.js, Next.js, Node.js, MERN Stack

Databases: MongoDB, MySQL, PostgreSQL

Cloud/DevOps: AWS, GCP, CI/CD (GitHub Actions, Jenkins)

Other: Data Structures & Algorithms, REST APIs, NLP, TensorFlow, Git
